

Whitepaper of DfCaws

Value of DfCaws NFTs

DfCaws NFTs are like a medal and are a symbol of being engaged in humanitarian support work.

Road Map 1st Stage

DfCaws is a project aimed at engaging in humanitarian support activities.

In particular, its assistance is targeted at children.

A portion of the funds raised will be used to produce and distribute cartoons in order to improve literacy rates.

Owner's rights and interests

1. NFT owners have the right to participate in community meetings.
2. Have a voice within the community meetings to discuss the storyline of the cartoon to be created.
The only thing that is fixed in the story structure is that the protagonist is a plague doctor. The other story structure is left to the community.
3. If desired, the name of the NFT owner will appear in the credits of the cartoon.
4. NFT owners can use their own NFT images for secondary use, such as merchandising.
5. Various benefits may be obtained in the future.

The roadmap for the second and subsequent phases will be released around the time the first phase is completed.
